vertising Medium It has no competitor. The illegal liquor sellers ought to be thoroughly grateful to the district attorney for the doubtless unexpected services which he has rendered them. By his disinterested vigilance in their behalf he has detected and publicly exposed an alleged fatal flaw in prosecutions against them, which their attorney had ad-mitted to be valid, and which prior to the district attorney's discovery had resulted in the conviction of certain of their number. The value of his services to them is enormously augmented by the fact that his official position enabled him to dismiss these prosecutions, which no court had yet found worthy of dismissal, and also to expel the prosecutor who devised this line of attack from \$1.35 is our price for Men's Gloria Umbrellas, an office which he was using in a manner to seriously annoy them. To be sure the dis- rules, &c. trict attorney threatens when the period of \$1.75 for Imported Wetchsel Handle Gloria Umpublication of the police regulations has expired to see what he can do with them under these regulations, but their attorney tells them that he can upset these regulations as un-authorized by law, and for the present, the Dumont prosecutions being dismissed, there is absolutely no method of holding them in check. Cheered by the confidence of their regular attorney that the weapon upon which the district attorney elects to rely some day is worthless, and exhilarated by the appearance of a friend in need who dashes aside the weapon which their regular attorney was permitting to force them to conviction, the illegal liquor sellers feel that they can afford to forgive the district attorney his threat, and with one accord they lift up their voices to him in enthusia tic thanksgiving.

If the Datrice afterney had not been a man he would have held his pesse when he found or thought he found that Dumant was convicting the liquor sellers under a repealed law.
